Cyber Security Consultant

WHO AM I?

I am a versatile technical consultant with a wealth of experience in delivering security work for companies of all sizes. I have extensive experience in assessing the security of web applications, networks and cloud platforms, and have participated in large-scale red team exercises.

In addition to my technical skills, I am a capable writer for both specialised and general audiences. On an interpersonal level, I'm known for leading by example and being a patient mentor.

EXPERIENCE

- | | | |
|------------------------|--|--|
| 2020– | Senior Cyber Security Consultant | iosiro |
| | My current role. I deliver security consulting for companies, particularly startups in the blockchain space. | |
| 2018–2020 | Senior Information Security Consultant | F-Secure Consulting (formerly MWR InfoSecurity) |
| | I delivered large-scale strategic cyber security projects and was responsible for quality and efficiency of work and deliverables across the South African consultancy team. I introduced a new reporting system that greatly increased the speed at which large reports were written. | |
| 2015–2018 | Information Security Consultant | MWR InfoSecurity |
| | I conducted client cyber security consulting engagements, from web application penetration tests to large adversary simulation projects. | |
| 2014
part time | Computer Science 2 Tutor | Rhodes University |
| | I tutored students during practical CS2 coursework. | |
| 2013–2014
part time | Student IT Technician | Rhodes University |
| | I provided technical support for student laptops. | |

EDUCATION

- | | | |
|-----------|--|--------------------------|
| 2014 | BSc (Hons) Computer Science | Rhodes University |
| | I completed a project about analysing internet background radiation and took courses in Artificial Intelligence, Distributed and Parallel Processing, Information Security, Image Processing, Mobile Development and Real-time Multimedia. | |
| 2011–2013 | BSc (InfSys) | Rhodes University |
| | I double majored in Computer Science and Information Systems, with additional courses in Mathematics, Economics, Management, Accounting and Electronics. | |

CERTIFICATIONS

- | | | |
|------|---|---------------------------|
| 2016 | OSCP Licence OS-20891 | Offensive Security |
| | I completed the Penetration Testing with Kali Linux (PWK) course. This involved identifying vulnerabilities, exploiting and gaining access to systems, and performing privilege escalation across multiple operating systems. | |
